Leave the first thing for later

Contents

My second document is **awesome**!

Still CompSoc

2000-00-01

1 First things first

I am thrilled to section my document in

1.1 subsections

$$f(x) = x \tag{1}$$

is boring.

1.1.1 and subsubsections

$$f(x) = x^2 \tag{2}$$

is better.

1.2 and more subsections

- o 1
- o 2
- O 3

1.2.1 and again

1. 1
2. 2
   (a) 3
   (b) 3.1
   (c) 3.2
   (d)
   $$f(x) = x^3 \tag{3}$$
   (e) 3.3

1.2.2 and again

$$f(x) = x^4$$

is ultimately glorious.

2   Are we doing this again?

Maybe not...

2.1   Please!

Could we please stop creating these?

3   This is the last one

I have heard this before...

3.1   Ignore the next part

It's a trick!

Last subsection

I really enjoy being the last subsection, but why am I not in the table of contents?
